Boarding House Inmates Flee Burning Building

The boarding house operated by Mrs. R. E. Richardson at 72 Walton street was the scene of considerable excitement Wednesday morning about 4:30 o'clock, when a blaze was discovered, and the firemen arrived to find the guests plunging out into the street scantily clad. Damage to the amount of about $1,000 was caused by the fire, which is believed to have originated from a match carelessly thrown into a rubbish heap. No one was injured.

Alkali In Soap Bad for the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified cocoanut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.—(Advt.)

LEMON JUICE IS SKIN WHITENER

Cheap home-made beauty lotion to remove tan, freckles, sallowness

At the cost of a small jar of ordinary cold cream, one can prepare a full quarter pint of the most wonderful lemon skin whitener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach a darkened skin and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to whiten rough, red hands. (Advt.)

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapepsin" makes sick, sour, gassy Stomachs feel fine

Do some foods you eat hit back—taste good, but work badly; ferment into acids and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin helps neutralize the excessive acids in the stomach so your food won't sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is upset you usually get happy relief in five minutes, but what pleases you most is that it helps to regulate your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder due to acid fermentation.

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to flush Kidneys and neutralize irritating acids

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get amout four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant effervescent lithia-water drink, which quickly relieves bladder trouble.—(Advt.)

PORTO RICO HEART AND SOUL WITH U. S. IN WAR

Island and People Doing Everything Government Asks of Its Citizens

Porto Rico and the Porto Ricans are as thoroughly imbued with the American spirit of conducting the war as are the states and the people of this country. Their war activities, in the volunteering and enlistment of soldiers, the patriotism expressed in the ready acceptance of the selective service law, the Red Cross work, the Liberty bond and thrift stamp campaigns and the scrupulous observance of the food administration regulations, in fact, can be taken as object lessons by many in this country, who have been hesitant in making the personal sacrifices that the winning of the war demands.

Benjamin A. Cheney, a broker of San Juan, who is in Atlanta for a few days for a visit to a son who is a sergeant at Camp Gordon, told The Journal Wednesday morning of the patriotic spirit and activities of the Porto Ricans.

"Porto Rico," he said, "is heart and soul with the United States in winning this war. The island and its people are doing everything that the government asks of its citizens. A regiment of Porto Rican soldiers is guarding the Panama canal. There were 150 Porto Rican young men in the first officers' training camp at San Juan, and hundreds of others at the first call for soldiers hastened to the United States to enlist. There is a training camp for the selective service army now being erected at San Juan, which will prepare more than 12,000 young men for service this year.

"Porto Rican ladies are active members of the Red Cross, and like in this country it is a common sight to see them knitting sweaters for the soldiers, while in their workrooms they are engaged in making bandages and surgical dressings. Just a few weeks ago, the ladies of San Juan alone sent over to France for the American soldiers twelve tons of guava jelly.

"The Porto Ricans subscribed for $2,000,000 in Liberty bonds last fall, and they are now preparing for the sale of an ever greater amount of the next issue in April. The Thrift Stamp campaign has found a ready response, and the food administration rulings for meatless and wheatless days are observed by the Porto Ricans as scrupulously as the tenets of their religion. To a Porto Rican the consumption of wheat bread on a wheatless day is absolutely unthinkable. He has even given up what was once his inevitable morning roll, and his breakfast on wheatless days now consists of only a cup of coffee."

Mr. Cheney came to Atlanta direct from San Juan because of the illness of his son, Alfred M. Cheney, now a member of the third officers' training camp. Young Mr. Cheney is convalescing from an attack of pneumonia.

"When I came over," said Mr. Cheney, "I thought of the stories I had heard of the poor equipment in the camp hospitals and the poor attention it was said soldiers were receiving in them. I am glad to say that I found all these stories untrue. Better hospitals and better attention could hardly be found anywhere. Any mother who has a son in the army may rest assured on that point."

On his visit to Camp Gordon, Mr. Cheney called on General Burnham, with whom he became acquainted while the general was stationed at San Juan.

"The government couldn't have chosen a better man for the command of the Eighty-second division than General Burnham," said Mr. Cheney. "During his stay on the island he became loved by all the islanders for not only his soldierly but also his manly and humane qualities."

"Jim" Moore Receives His Second Promotion; He Is Now a Captain

It is now—Captain James S. Moore. Friends in Atlanta of "Jim" Moore, former Tech student, Gordon football coach and member of the reportorial staff of The Journal, will receive with pleasure the news of the promotion of this popular young military man.

This is the second promotion Captain Moore has been given since he entered the service as a second lieutenant at Fort Leavenworth. Until recently he was stationed at Fort Oglethorpe and assigned to the Sixth United States infantry.

Captain Moore is the third Journal man to be awarded a captain's commission, the other two being Ralph Smith and Thomas B. Sherman. Captain Smith, former Journal correspondent at Washington, is now an aide to General Goethals, while Captain Sherman, graduated from the second officers' training camp at Fort Oglethorpe, is stationed at Waco, Texas.

Commander Thanks Y.M.C.A. for Letting Men Use Privileges

The hospitality of Atlanta's Y. M. C. A. in turning over its gymnasium, plunge and baths to 160 enlisted men comprising three aviation squadrons attached to the United States Signal corps during their three-hour stop over this city on Saturday, was praised by the commanding officer, in a letter of thanks received Tuesday by Acting General Secretary W. L. Beyer, Jr. The letter follows:

"I want to thank you in behalf of the officers and men in this command for your courtesy in extending to us the privileges of your shower baths and pool today. It was so typical of the great work which the Y. M. C. A. is doing for the army and was just one more instance of the splendid spirit with which you all are doing your share. It was a great refreshment and a welcome break in a long and tiresome journey, and was much appreciated by us all. I only hope we did not upset your regular schedule too much."

Committee to Recommend Mrs. Godbee's Parole

MILLEDGEVILLE, Ga., March 6.—The legislative committee for the past two days inspecting the penitentiary here, is expected to submit a report to Governor Dorsey and the prison commision recommending the parole of Mrs. Edna P. Godbee, serving a life sentence for the murder of her divorced husband and his wife, in Jenkins county. It will also recommend that Creen, who assaulted Leo Frank, be removed from his present place of confinement to a more suitable place in the stockade.

CITY CO-OPERATES IN SANITARY WORK WITH FEDERAL MEN

Unanimous Election of Dr. R. M. Grimm Believed to Bring About Absolute Co-ordination in Health Regulations

A more definite and more efficient plan of co-operation between the city health department and the government health department is expected to result from the action of the board of health Tuesday afternoon, when it voted unanimously to confer the title of deputy health officer of the city of Atlanta on Dr. R. M. Grimm, of the United States public health service, who is engaged in extra cantonment sanitation for the government.

Before the board took its action, Dr. L. L. Lumsden, surgeon of the United States public health service, explained that the United States public health service in no manner whatever desired to supersede the powers of Dr. J. P. Kennedy, city health officer, and that its only purpose was to bring about a definite plan of co-ordination by which a uniformity could be worked out in the enforcement of city and government health and sanitary laws. Dr. Kennedy was given high praise by the government official for the manner in which he and Dr. Claude L. Smith, the city bacteriologist, had extended their hearty co-operation to the government in the past several months.

Dr. Lumsden, who is in charge of sanitary work of southeastern cantonments, suggested that lost motion could be eliminated, money could be saved, and duplicate tasks prevented if Dr. Grimm was given some official title as a city health officer.

The spirit of Dr. Lupmsden's talk appealed to members of the board of health and to Mayor Candler, who voiced the opinion that the city ought to take every advantage of the offer of the government to aid in bettering the city's sanitary conditions.

Dr. A. H. Cochran introduced resolutions, in which were expressed the utmost confidence of the board members in the ability of Dr. Kennedy. Dr. Cochran explained that these resolutions were drawn up prior to the meeting, and at a time when he was under the impression that the government desired to place an official in complete charge of the health department. Dr. Cochran added that the talk of Dr. Lumsden had clarified the situation.

It was on the motion of Dr. Cochran that the board voted to confer the title of deputy city health officer on Dr. Grimm. In his city office, Dr. Grimm will work hand in hand with Dr. Kennedy, it was announced.

The Atlanta chamber of commerce, at a meeting Tuesday afternoon at 3 o'clock, heard talks by Dr. Lumsden and Dr. Grimm and passed resolutions pledging the full support of the chamber of commerce to the government in its work, now being conducted by the United States Public Health service.

Daily Inspection for Base Hospital Planned

ATLANTA JOURNAL BUREAU, Camp Gordon, Ga., March 6.—In order that no possible stone be left unturned in the task of seeing that hospital patients at Gordon get the best possible care and treatment, an officer of the general staff will inspect thoroughly, every day from now on, the base hospital.

Particular attention will be paid to the matter of cleanliness. The grounds and buildings must be clean and every ward must be absolutely fly-proof. All linen and clothing must be spotless and men unable to bathe must be bathed regularly by attendants. Food, its quality, its quantity and its preparation, will be inspected daily and complaints will be heard and investigated by the inspecting officer whenever a patient feels that he has a brievance.

Federal Grand Jury For October Discharged

Activities of the federal grand jury for the October term were concluded Tuesday afternoon when the jurors were discharged from further duties in connection with the court by Judge William T. Newman, in the United States district court. The grand jury for the next term will convene Monday.

COLLIER MAKES PLANS FOR WEST PEACHTREE PAVING

Repairing Work Between Sixth and Twentieth Streets to Commence Very Soon

Under authority of a resolution by Alderman Jones Ewing, approved by the council, the aldermanic board and Mayor Candler in the early part of February, Chief of Construction Henry L. Collier was making plans Wednesday to begin, in the very near future, the repairing of West Peachtree street from Sixth to Twentieth streets. The resolution provides for an appropriation of $1,500 from the streets ordinary fund of the Eighth ward to pay the city's share of the cost of repairing the street.

Alderman Ewing said that the Eighth ward council delegation was very anxious that the work be put under way at the earliest moment possible.

Traffic over this thoroughfare has been so heavy since the establishment of Camp Gordon, that the street has developed many ruts and holes and inequalities that are giving drivers much trouble.

Chief of Construction Henry L. Collier said Wednesday that the street could be paved under the terms of the 1912 general paving ordinance. This ordinance does not make it necessary for a petition to be filed by the property owners to have the work done, as the cost will be under $1 a front foot. Mr. Collier believes the repairs can be made at a cost not exceeding 80 cents a front foot.

Mr. Collier and council members on the street committee are particularly anxious to put this street in good shape, as it is traveled extensively by automobile tourists, who arrive in Atlanta from all parts of the country.

Bartow's Public Schools Are Doing Their Bit for War Saving Stamp Sales

CARTERSVILLE, Ga., March 6.—The public schools of Bartow county, under the direction of J. W. Jackson, superintendent of the department of education, are doing splendid work for thrift and War Savings stamps.

In the town of Emerson, which has a population of 200, and a school enrollment of 75 pupils, the children are leading all county schools in the campaign launched on February 22. They have sold $2,521.35 worth of stamps. This school is taught by Mrs. D. H. Monroe and Miss Alice Cox, who have put wonderful enthusiasm into their pupils.

The schools at Stilesboro and Taylorsville made the next best score with sales of more than $250 each.

The Cartersville post office records show that $7,033.21 worth of stamps had been sold by the postmaster up to March 1, and this does not include the sales at other post offices in Bartow county.

Motorists Plan Visit to Camp Wheeler at Macon

Members of the executive committee of the Georgia State Automobile association will visit Camp Wheeler when they gather for their next meeting at Macon on March 18. The meeting of the committee will be held at night, at some place yet to be chosen by the auto clubs of Macon.

Save Your Cash and Your Health

HILL'S CASCARA BROMIDE QUININE

The standard cold cure for 20 years—in tablet form—safe, sure, no opiates—cures cold in 24 hours—grip in 3 days. Money back if it fails. Get the genuine box with Red top and Mr. Hill's picture on it. Costs less, gives more, saves money. 24 Tablets for 25c. At Any Drug Store

—and not only for Colds

A HEALING CREAM

Mentholatum

Always made under this signature A. H. Hyde

Just as competent a "little nurse" for cuts, burns, and after shaving. In 25c tubes and jars at all druggists'.

GEORGIA CAN HELP WIN WAR BY RAISING FOOD

Dr. Soule Addresses Joint Meeting of Council and County Commissioners

Georgia can render distinct service to the government in winning the war by concentrating its efforts in making successful the greater food production and conservation program planned for the state, Dr. A. M. Soule, federal food administrator of Georgia, Wednesday afternoon told a joint meeting of the city council and county commissioners at the city hall.

"We must have a normal cotton crop to help relieve the shortage of spinning fibers and supply the war needs of cotton, but we must also concentrate our efforts to increase the production of foodstuffs on our normal acreage. To concentrate our efforts on our normal acreage will help us to deal more effectively with the shortage of labor and save the efforts and the time that the addition of more land would entail," he said.

Dr. Soule spoke during the morning to the students of Girls' High on the effective part women can take in the war through food conservation and food production. He prefaced both addresses with a description of the attitude which he said the people of Germany assume toward the people of the United States.

"The Germans think we can't make the sacrifices necessary to the winning of this war," he said. "That thought strengthens their morale. Let us all work together, for we are all in this war, whether or not we wear a uniform, to speedily dissipate that thought and to hasten the end of the struggle.

Four-Minute Men To Meet on Thursday

Walter P. Andrews, chairman of the Atlanta, "four-minute men" committee, has called a meeting of the four-minute speakers at his office Thursday, to arrange for them to speak the rest of this week and the first of next week at local picture shows and theaters in the interest of the war rally that will be held at the chamber of commerce next Monday night.

Chattanooga Man Dies

CHATTANOOGA, Tenn., March 6.—Albert H. Rogers, one of Chattanooga's foremost business men, died at 5 o'clock yesterday afternoon as the result of a paralytic stroke suffered a few days ago. He was a member of the hardware firm of Rogers and Bailey, and active in all civic and commercial bodies.
