

mention it at the coroner's inquest. That was Tueaday after-
 noon. I told you in the statement I gave you that I could not
 swear positively as to the time I was at the factory. I said I
 got to the pool room between 12:20 and 12:30. I had been up in
 the factory before I met Mrs. Freeman and Miss Hall at the Busy
 Bee. I was in the office and saw Mr. Frank between 12:20 and
 12:25. At the time I made the statement to you that I was there
 between 12:20 and 12:25 I had reckoned the time down as I have
 now. The bak door at the stairway going up from the office
 floor to the top floor is fastened with a bar. It is not closed
 except on pay day. It is true that a man on the office floor
 could easily lift the bar and walk up, but a man could not come
 down to the office floor from above at all. Anybody could fix
 that bar in its place in half a minute. I told you in the de-
 tective's office that I reckoned the time of my being in the fac-
 tory from the time I left home and the destination I went to,
 and I said I could not remember ~~my~~ ^{the} stop at Wolfsheimer's which
 took ten or fifteen minutes, and that is why I reckoned it so
 positively. I left home I know at about a quarter to twelve. I
 looked at my watch. It takes twelve or fifteen minutes to walk
 to the factory. I got to Wolfsheimer's pretty close to 12
 o'clock. I was there ten or fifteen minutes.

RE-DIRECT EXAMINATION.

At the time the detectives and Mr. Dorsey talked to me about
 the murder, I overlooked the fact that I had been to Wolfsheimer's.
 My wife called my attention to it when I got home. I mentioned
 this matter to my father and my wife before I ever mentioned it
 to Mr. Frank. Mr. Frank did not tell me not to mention it to
 anybody. If a detective had asked me I would have told him
 what I knew about it. At the Coroner's inquest I said it could
