

to see if I could pick out a man that looked suspicious, and Jim Conley was the man I thought looked most suspicious. The latter part of last year I issued orders that the sweepers must stop cleaning up by twelve o'clock and if they hadn't cleaned up by that time they would have to knock off and leave the factory. If they stayed there after twelve o'clock I didn't know anything about it. Harry Denham usually stayed in the factory every other Saturday afternoon to clean the motor and oil the machinery and he selected someone to stay with him. He would do this about twice a month. The girls in the packing department did quite some overtime work on Saturday afternoon.

RE-DIRECT EXAMINATION.

I have made no contribution toward the fund to defend Frank. I don't know anything about Daisy Hopkins' general character. I don't know who nailed up the door on the Clark Woodenware side. Lots of people have been there all over the factory. If a body had been shot down the chute, behind those boxes, it would have been hidden more than where it was found. The boxes around the chute are piled nearly to the top. I never noticed any difference in the boxes Sunday from what I left them there Saturday. No, I don't know anything about Conley being there Saturday afternoons and watching. He wasn't there by my instructions. There is a good deal of water on the floor of the metal room. On payday in order to keep the people from coming down the back, the instructions are always to close the back door to the metal room. There is no special reason for the paint to go out of the polishing room, but it is out in other places. It is carelessly done. You can see haskoline scattered around. The floor in metal room where body is supposed to have been found has a rise of several inches in it, something like an edge. As to whether a man standing up and looking over the safe door hasn't got a vision going beyond the clock so that he could see everybody that registered, he couldn't see it. I tried it. I don't know whether either the clock or the desk has been moved before I went to see. My recollection is that the table is nailed to the wall and the clock screwed to the table. You can tear the whole thing up and move it. The desk could not be moved without my knowing it. I didn't have the clock fixed after April 25th.

RE-CROSS EXAMINATION.

On Friday last I made an experiment by sitting at Frank's desk and leaned over as far as I could see through the outer door towards the clock. I could see half of the circle on clock No. 2. I could not see any of the other clock at all. The clock and desk could not have been moved without my instructions. The paint is scattered all round. It gets all over the place and we can't prevent it. We never have washed the metal room floor since I have been there. We never found any water or blood where it was said the girl's body was found in the metal department. The view I got from front door on April 26th into area around elevator shaft was blocked by boxes.
