

shaft to the place where the body of the young lady is said to have been found, and 80 feet from the front of the elevator shaft to the trash pile and 90 feet from the elevator shaft to the boiler, and 116 feet from the elevator shaft to the colored people's toilet. It is 135 feet from the elevator to the back stairway. The chute as shown on the page 2 of the plat is five feet wide and 15 or 20 feet long. It empties upon a platform in the basement about eight or ten feet from the back steps and about 32 feet from where the body is said to have been found. The back door is 165 feet from the elevator and the total length is 200 feet. I saw no furniture, except a bunk with old dirty sacks, which were very filthy. The floor of the basement is dirt and ashes. The trash pile is 57 feet from where the body was found and it is 21 feet from where the body was found to the colored toilet, and 42 feet from where the body was found to the back door. The angle from the colored toilet to where the body was found is 43 degrees and the partition in the basement cuts off the vision. I should say that it would cut off about half of the body. It is very dark in the basement. These diagrams are accurate, made according to accurate instruments. On the first floor there is an open areaway, extending to the west end of the building. It has a door about five feet wide. There are two toilets in this open areaway, about 90 feet from the front. This part of the first floor is directly above where the young lady's body was found. The size of the packing room is shown on page 2 of the plat, is about 33 by 80. The inner office of Mr. Frank is 12 1-2 by 17 1-2. When the safe is open, you can see nothing from the inner office to the outer office, or the outer office into the inner office, unless you stand up, and the safe is about 4 1-2 feet high. A person five feet and 2 inches tall could not see over the safe. There are no shades in the windows and a person on the opposite side of the street could look into the office. It is 150 feet from Mr. Frank's desk to the dressing room. There is no view from Mr. Frank's desk to the stairway to the first floor. Looking from Mr. Frank's desk towards the clocks you can see about one fourth of the east clock. You can not see the bottom of the stairway which leads from the second to the third floor. The doorways in the metal rooms are about six feet wide. They have glass in them. It is ten feet from the door to this dressing room. It is 26 feet from the dressing room to the place marked "lathe," and 37 feet from the lathe to the point where Conley said he found the body. It is 19 feet from the place where Conley found the body to the ladies' toilet.

#### CROSS EXAMINATION.

There are ashes and cinders along the walk in the basement. Mr. Schiff showed me the point where the body was found. I made every calculation from the point that Mr. Schiff showed me. I made my diagrams within the last month. About two feet of the wall prevents seeing from the desk in Mr. Frank's office to the stairway. You can only see a part of the east clock and doesn't take in the west clock at all.
