CAUSE OF GREATER TECH SHOULD APPEAL TO ALL

Success of Campaign Will Help
Make City an Educational
Center, Say Glenn.

The possibility of making Atlanta a great educational center, with greater facilities than any other city in the South, is the first step in pointing out to the public the value of the Atlanta and Power Company, who is an alumnus of Tech.

There is now looming up the possibility of making Atlanta one of the greatest educational centers of the South. The first step in this direction cannot be accomplished in a month or a year, great strides may be made by the public present of Georgia Tech.

Every widely interested citizen of Atlanta is fully interested in the welfare of his various institutions and enterprises, the best of their kind, so that in speaking of the cause of Tech, it is necessary to speak of the cause of the Atlanta Institute, which they have imposed.

A disposition to help ourselves will greatly assist us in our efforts to make Tech a well established fact in the building of Atlanta. The Atlanta Institute is hard to secure unless those disposed to help themselves have confidence in the cause of Tech.

Education is not only creative, but also reproductive, and there are some indications that education alone can cure. The cause of Tech should appeal favorably to all; there is no reason why it should not succeed; there is the desire to place Atlanta in a prominent place on the educational map of the South. The cause of giving the young man of to-morrow the best possible education, as they are the ones who in turn will be the leaders of the various demands of society and government; there is the desire to have the best educational pendencies for educational purposes made at home rather than in New York, Boston, or elsewhere. Consider the distance; there is the proof that the Atlanta Institute has already taken its place in the building of Atlanta, and the necessity of starting on the lowest rung of the ladder to success. There should be the assurance that the contribution to the present campaign will be repaid in the future by the fast incoming tide.

Convicts Escape.

Forstyth, Ga., June 23.—(Special) Three white convicts made their escape from the state prison at Macon, and two are still at large. One, Columbus Brannah, a miscreant condemned to life imprisonment, and two other convicts to make their getaway, was captured in Atlanta.

GOVERNMENT OPENS WHITE SLAVE PROBE

Young Woman, Her Husband
and Another Man Arrested
in Aragon Hotel Room.

With the view of determining if there has been a violation of the Mann white slave act, the federal authorities have sent a team of investigators into the records of a young woman and her husband, who are now held in another man's room.

The woman gave her name as Mrs. R. E. Evans, and said she and her husband came to Atlanta from Wheeling, W. Va.

She said she had to pay the taxi bill.

"I can't pay the expenses,"

Judge Hatchcock told the young suspect in the case.

"You should support your wife."

He was ordered to stand trial on the charge of larceny against Carl Akeridge, a College Park youth, who had been arraigned for the alleged theft of a diamond ring.

Akeridge, it developed, had been given a gold wedding ring by his bride, a former student of the Georgia Tech.

The ring belonged to her mother.

Upon a trip to Savannah the jewel was lost, and the man, who was a college student, had to swear his heart of the loss, and to have asked her to send him money for "expenses."

THE DEMAGOGUES AT BAY.

The futile attempt to make the tax equalization act an issue in the pending state campaign is a refreshing exhibition of demagoguery.

What the new law has accomplished and is accomplishing is now becoming of common knowledge throughout Georgia. Fought at first, or regarded with suspicion, the law now is almost universally acclaimed. There is a reason for the chorus of satisfaction coming from every section, and the tragic sag in the plot to weaken the law.

With the enforcement of the law the mass of the people—the average man—finds that for nearly fifty years they have been paying more taxes than they should because a few conscienceless dodgers have been paying considerably less than they should—many of them paying nothing at all.

This discovery has drawn the fangs of the demagogues that were ready to grasp at the tax equalization law, at any law, hoping to obtain a few more votes by appeals to paroxysm, passion and prejudice. As aid to this new viewpoint on part of an average voter it is further discovery that the law will mean that the state's current and disgraceful deficit is to be wiped out, and THE TAX RATE REDUCED, without making any property tax one cent more than in just a few years.

It took the demagogues a long time to find out that the people of Georgia possessed sufficient intelligence to rightly interpret the benefits of the law and to reject efforts to inflame them against it. These demagogues singled out the tax equalization act as offering a particularly rich field for their operations. They could play upon the prejudice of the masses by decrying them—and this was their chance. It made no difference to these demagogues that the state went bankrupt; if it had to go down under repudiation; if every state institution closed its doors.

It made no difference to some of them if they themselves had voted for or had actually proposed this law or laws similar. Don conviction. What was a little thing like honesty, like conviction, when compared to votes—bought even at the sacrifice of conscience.

So they hammered the law right and left, hoping to discredit their opponents who had been courageous enough and sincere enough to come to the state's aid in the enactment of this law.

But now we hear less of the law as an "issue."

In a few days, we will hear nothing at all, except in approval of the law.

The people have magnetized the sheer clasp, the undivided selflessness of this demagogue that would sacrifice a state's honor for a few miserably bought votes.

Once more, the demagogues have over-shot the mark!

SUPT. BRITAIN'S RECORD.

State School Superintendent M. L. Britain is a candidate to succeed himself. Opposition to him cannot be other than pernicious, since it is inconceivable that the people of Georgia would entertain seriously a proposal to displace the man who has shown such marked aptitude in the vital field of education.

Superintendent Britain's distinguishing characteristic is his sanity. He is not stampeded into legislation of a faddish or demagogic nature, attractive on its face, but impractical and generally advanced by visionaries who would not have to bear the responsibility of failure. He is thoroughly familiar with the conditions in Georgia, having visited every county in Georgia, a

record probably unique among statehouse officials.

Superintendent Britain's equipment is not confined merely to the educational side. In the legal questions, constantly arising in his department, he has shown a broad grasp and intuition, his rulings having always been confirmed by the board of education and the courts. Both the state educational associations have endorsed him personally, and his professional work. The esteem in which he is held outside of Georgia is shown in the fact that he is a director in the National Educational Association of America and was last year unanimously elected president of the Southern Educational Association. Two hundred and ninety of the city and county superintendents of the state, out of 300, have placed themselves on record as supporting him, and when a man's own colleagues are practically a unit in his behalf the inference is unmistakable.

There is no doubt that the voters generally of Georgia will follow the lead of Mr. Britain's colleagues. In the previous elections he carried all but two counties. It will be surprising if the primary of this year does not make the vote unanimous.

ABHORRENT AS ASSASSINATION UNDER ANY CONDITIONS, IT IS DOUBLY SHAMEFUL IN THE CASE OF ARCHDEACON FRANCIS FENDRUM, HEIR TO THE AUSTRIA-HUNGARIAN THRONE, AND HIS WIFE. THE BLOODY DEED CLIMAXED THE FATALITIES THAT HAVE FOLLOWED THE HOUSE OF HABSBURG WITH THE RELENTELESSNESS OF Nemesis.

While the assassination seems to have been of Servian origin, the circumstances under which it transpired illustrate the loose manner in which the Austria-Hungary Empire is ruled to-day. In this aspect, the domain over which Francis Joseph has held sway is one of the most complicated, if not the most complicated, in all Europe. Austria's intractable land last had her to aebor peoples of totally dissimilar birth, breeding and traditions. The tragedy at Sarajevo is the tragedy of inherited hatreds, of racial antipathies, religious and tribal feuds reaching back many years for their origins.

What the new law has accomplished and is accomplishing is now becoming of common knowledge throughout Georgia. Fought at first, or regarded with suspicion, the law now is almost universally acclaimed. There is a reason for the chorus of satisfaction coming from every section, and the tragic sag in the plot to weaken the law.

ABOUT "BLUE SUNDAYS."

Waycross has been experiencing some blue and near-blue Sunday recently. The ancient law banning the vending of soda water and cigars on the seventh day were observed with ordinary Sunday a week ago. Last Sunday services were found for circumventing the law. By next Sunday the town will probably be back to its former status of an average Sunday observance.

And that will be.

Zeal in religious observance is excellent. But it is well to remember that folk are more apt to feel spiritual on torrid Sundays, when they can buy a cold "soft" drink and a cigar, than when they are compelled to drag out the twenty-four hours minus the comforts that make high temperatures endurable.

Time was when the strict observance of Sunday was compulsory. The law broad-minded us somewhat of our time. Do not we say that mandatory religion of this sort breed hypocrisy and attract us, but impractical and generally advanced by visionaries who would not have to bear the responsibility of failure. He is thoroughly familiar with the conditions in the vital field of education.

The Village Doctor has prepared this
wary-side sermon recently, and Bell
told me:"The people go out of their way just to
wander about the primrose path and say
if there are any new promenaders in sight.
Those who are unable to get down to
giving up their sins are the ones who are
going on there. Those who do see them
do the same, and are willing to talk about
them. So the people are still in the same
old-timey sins, and the primrose path is
the sunset of life, hear the news." If you are
one of those who are still in the same old
path, you are a fool if you think the
people don't see you."

FEDS WILL CLAIM
WORLD'S TITLE
AT SEASON'S END

Chicago, June 28.—Some team of the Federal league will claim the world's championship this fall. This statement was, in effect, emanated today from the office of James Gilmore, president of the league. He said that the title of champion in his organization would challenge the winner of the world's series between the Federal and the National leagues. This is not accepted—and it will not be accepted—but the Federal league and a team of stars from the remaining franchises will be the champion. The championship will be claimed by the victor. The Federal league is to be the champion "by newspaper and public recognition."
