

SULZER TO BE TRIED AT HIGH NOON TODAY FOR HIS CIVIL LIFE

First Court of Impeachment to Pass on Acts of Governor Convenes in New York State Capitol.

SULZER IS CHEERFUL ON EVE OF HIS TRIAL

Opponents of Sulzer Predict That He Will Resign His Office Rather Than Face Cross-Examination.

Albany, N. Y., Sept. 17.—The stage is set for the opening at noon tomorrow of the trial of the impeachment of William Sulzer, governor of New York, before the first high court of this state to pass upon charges filed against her chief executive.

While Governor Sulzer conferred tonight with his counsel, members of the assembly, board of judges and the grand jury will act as prosecutors, discussed with their legal assistants methods of procedure on the morning. Members of the court of appeals and the grand jury who jointly compose the high court, also mapped out their plan of action.

Sulzer Reporters Cheerful Friends of the impeached executive repeated their assertions that he is in good spirits, confident of the support he will receive from the voters cast upon it by the adoption of the articles of impeachment. They were no less certain that he had no thought of resigning and thus escaping the ordeal of what promises to be a lengthy trial in the other hand, his supporters were free in expressing the opinion that after the legal preliminaries had been swept away, and the taking of testimony had begun, the governor would surrender his office rather than face cross-examination.

From the apartment camp came no intimation of his defense. There were only surmises. These, in effect, were that his counsel first would attack the validity of the impeachment on the ground that the grand jury had no authority to adopt the articles while in extraordinary session and that efforts would be made to prevent the grand jury from sitting as judges. If the preliminary objections are overruled and it is held that the grand jury tonight that they will be held in contempt of court by the governor's refusal to defend on the claim that whatever he may have done prior to his impeachment has done in the line of his acts while executive constitutes a high crime or a misdemeanor.

No Delay Anticipated. The belief that the preliminary legal technicalities will be quickly disposed of is strengthened by the assertion tonight of Chief Judge Edgar M. Cullen of the court of appeals, who will preside over the deliberations of the high court. "I anticipate no delay either in the opening of the course of the trial," he declared. "I expect we shall be able to decide the preliminary legal questions that may be raised within a few hours and proceed with the taking of testimony possibly on Friday morning."

The procedure to be followed, order of voting and other details, Judge Cullen said, probably would be decided by a committee composed both of judges and laymen. An important development today was the announcement by Chairman Levy of the assembly managers that John B. Staunholder had been added to the prosecutors legal battery. Other attorneys who will aid in the prosecution are Alton B. Parker, Edgar T. Brackett, Eugene L. Connelley, Theodore J. Kneel and Hiram T. Wood.

According to present plans, as soon as the senate has formally convened tomorrow a committee will notify the judges that the senate is ready to take up the business of the court and the judges will then go to the senate chamber. Chief Judge Cullen will preside. The board of managers of the assembly will then appear and present the articles of impeachment. At this point Governor Sulzer will be

Schmidt confessed that he fell in love with the girl while she was a servant in the rectory of St. Bernard's Catholic church and said they were recently married, he himself performing the ceremony. He said he had obtained a regular license. He said he kept into the flat at 44 Broadway avenue, which he had rented for the girl and himself, and while she slept, cut her throat with a big butcher knife which he bought for the purpose. Then he dragged the body to the bathroom and dismembered it, using a carpenter's saw. He hid the pieces of the body up and dropped them into the Hudson river during several trips across a ferry.

# The Atlanta Constitution as the Standard Southern Newspaper

**T**HERE are various types of newspapers each with its distinct appeal and of varying degrees of popularity in different sections of the country. All of them are represented in the South.

One is the sensational newspaper. It is not as fashionable as it used to be. Many shrewd newspaper men, trained in sensing the public taste, think it is waning very fast. Faking is its foundation. Its program is to hit the reader every day between the eyes. If bona fide news serves its turn, that news is played up in blazing, hysterical headlines. The reading matter screams and smells of fire. It is merciless when it treats scandal. Sometimes it is reckless of the community welfare so long as it shocks the pennies from people's pockets. If material for these spasms is not forthcoming, it has often been known to resort to invention. Its editorial views are biased, bushwhacking and uncandid.

Another type is the feature newspaper. It is much milder than the first, but their programs have something in common. It is always in search of the picturesque, the unique, the bizarre. Often it prints accurate news. Oftener the news is "muffed" or obscured or muddled in the effort to distort a feature out of it. It abounds in graphic pictures. Its editorial, like its news policy, is casual, flippant and happy-go-lucky.

A third type is the ultra-conservative newspaper. Some mighty fine sheets are in this class. Most of them lean too far backward. They are afraid of progress in the news and public issues until progress has grown whiskers. An innovation generally gives them the palsy. For a thing to be new is to make it rest under suspicion. They never like to get from under the shadow of the established order. A great big world-thrilling event generally leaves them with a steady pulse-beat.

There are other types. These three are archtypes.

The Atlanta Constitution, as "The Standard Southern Newspaper," is distinctive enough as to have almost if not quite created a fourth pronounced type.

It is the plumb-line by which Atlanta, the state, south and nation gauge other newspapers of the same class.

Since its establishment it has been operated upon a clean-cut, definite program, with definite journalistic purposes behind it. That program has not been and is not the result of accident. It was not stumbled upon in the dark. It is the result of a keen and patient study of the paper's field, microscopic examination of the best and the worst in its contemporaries, and intimate sympathy with the ideas of its constituency.

The Constitution is an entity.

It represents the best of other types of newspapers, with an added individuality of its own.

First of all, it prints the news of other countries, its own country, its own state and its own city. The public wants in its newspaper, primarily, a report of all the news occurrences that are informative and interesting and fit to print. The Constitution gives right of way to news. The greater portion of its editorial organization is concentrated upon the task of gathering the news and presenting it properly. No newspaper of its class anywhere prints a more comprehensive news review of the world occurrences.

It gives the TRUTH in the news prime consideration. It regards itself as in a compact with its readers to deliver certain goods. It does not knowingly deliver damaged or tainted goods.

It believes allegations should be verified before they go to its readers. It does not countenance smutty or suggestive news. It stresses cleanliness.

This does not entail prudishness. It means THE TRUTH stripped of sly embellishment.

But it does not believe there is any necessity to present the news dully. "An honest tale spreads best being plainly told," but that does not mean TOLD PLAINLY.

Everyone likes a bright but accurate talker, and everyone likes a bright but accurate newspaper. The paper that described

the Titanic disaster like reciting a lesson would not get very far. The Constitution employs able and highly-trained men to put GINGER into The Truth.

It believes in an attractive dress for itself. Good clothes on man, woman or newspaper represent good taste.

Typographically, The Constitution is a model. It strives for all the grace compatible with the correct estimate of every article's worth.

It employs experts who know what's what and who's who in the news, and what credit to give men and events. It is not wedded to any arbitrary typographical formulas, when important things happen.

When occasion justifies, to use street parlance, it "throws it into the high gear" in the matter of type display. But it strives always to preserve consistency between the real importance of news and its typographical presentation.

It believes in features that are entertaining—in entertainment itself.

It retains humorists and facile artists to relieve the paper of the heaviness which the printing of unflavored news only would entail.

It prints fiction, essays and various other classes of matter that are as entertaining as they are informative, so that the paper will provide interesting reading for every taste and mood.

In its editorial columns it honestly strives for what it believes to be for the good of the largest number.

It does not fawn.

It does not misrepresent.

It does not mind making enemies.

It avoids provincialism.

It tries to be national in its viewpoint.

**ALTOGETHER ITS PROGRAM IS TO APPEAL TO THE JUDGMENT, THE CONFIDENCE, THE BELIEF IN THE WHOLESOME THINGS OF LIFE, THE SANE DESIRE FOR SANE PROGRESS AND FOR ALL WORTH WHILE THINGS OF EXISTENCE, OF THE BEST TYPE OF SOUTHERN PEOPLE.**

The program has been undeviating.

THAT is WHY

EZEMA ON BABY'S HEAD AND FACE

In Pimples Like Blisters. Head Perfectly Raw. Hair All Gone. Burned and Itched. Cuticura Soap and Ointment Cured.

Ready, W. Va. "My baby boy when three weeks old took the ezema on the head and face. It broke out in pimples and blisters and he looked like a yellow water would run from him. His head was perfectly raw and his hair all gone. It was every body's opinion that he would never have any more hair. As the score spread his hair came out. The breaking out looked so bad that we had to keep him from scratching his head and face. It caused discomfort. He couldn't rest at night in bed and he'd be crying. He was treated for eight months and he got worse all the time. So I decided to try Cuticura Soap and Ointment. We first washed the sores with the Cuticura Soap and covered them with the Cuticura Ointment morning and at bedtime. We kept a thin cloth and cap on his head. In two months he was completely cured. We used the Cuticura Soap and two boxes of Cuticura Ointment." (Signed) G. A. Dye, Jan. 7, 1912.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold everywhere. A single six is often sufficient. Liberal sample of soap mailed free with 25c. Write to: Address post-office "Cuticura, Dept. T, Boston, Mass." Men who shave and shampoo with Cuticura Soap will find it best for scalp and scalp.

The man is married. Chief Beavers suspended him.

What has this to do with the "lust-kings" and their plans? EVERYTHING. The Chief must have power to prevent the contamination of our children's playgrounds; if a married man, an officer of our force, offends, DUTY DEMANDS the more that the Chief remove him. If the Board should condone such actions upon the part of subordinates, where would be the discipline of our force? Who would be responsible for the just contempt with which men would view the officers of the law?

And the plain-clothes men! THEY WERE a part of the force before the Chief gave Protected Vice its death blow; the "lust-kings" and their friends forgot the existence of these men and THE INTEGRITY of the police force when they sneered: "He can scatter evil. He cannot control it. He will only make a mess."

But these men have handled the situation; they have controlled it. Hence the effort to discredit them and take them away from the force—the attempt to cut off THIS EFFECTUAL ARM that has put the fear of God into the hearts of the white slaver and the "lust-kings" is not inconsistent with your freedom.

On the contrary, the liberty whicres the sacrifice of the daughters and family enjoy is wholly dependent upon the fear of the law impressed upon those to whom honor and a woman's name are meaningless terms.

### HONEST CONTRACT FOR COTTON TRADE

#### Effort to Secure Such Contract and Modify the Clarke Tax on Deals in Futures—Wilson's Aid Sought.

By John Corrigan, Jr., Washington, September 17.—(Special)—Strong efforts are being made to have President Wilson help in securing an amendment to the Clarke futures tax which will require the New York cotton exchange to adopt an honest contract based on government standard grades of cotton.

The house conferees are in favor of modifying the Clarke amendment entirely by denying the use of the mails or wires for carrying on such business. Pressure now is being exerted to reform the exchange contract rather than abolish the exchange.

Advocates of the new plan believe this can be done through the use of the government's taxing power. It will be tendered on contracts by attaching severe penalties to the tender of "dog-eared" or waste cotton.

As conditions are now the New York exchange arbitrarily fixes the premiums and discounts on the grades above and below middling cotton twice a year. No matter how high these grades may fluctuate in the spot market, the arbitrary value given them on the exchange is not changed.

It would be just as reasonable to try to fix in advance the difference between the value of New York Central and Georgia Central railroad stock throughout the year. It could be done with just as much justice or reason.

Senator Hoke Smith, of Georgia, who fought for the Smith-Lever compromise today he doubted if the Clarke amendment would prohibit gambling. The tax would simply be passed on to the cotton farmer through debasing it from the price offered to him for his staple, he said. It might prevent some speculative sale where \$1 or \$2 a bale is put up as margin, but would not prevent the great volume of gambling.

"What we ought to do," said Senator Smith, "is to require the cotton exchange to be a real cotton market, where a man could buy a contract for a bale of cotton he could ship. Such exchanges would furnish a wider market for cotton and advance prices. The custom which permits a trade to transfer waste cotton at an easily un-fair valuation artificially fixes its

### What helps to reduce the price of cotton in the farmers' hands?

Substitute for Clarke Amendment. A substitute for the Clarke amendment submitted to the conferees by Representative Leavelle, of North Carolina, would provide that the tax of 50 cents per bale shall not be assessed where the cotton contracts call for the regular government grades, and such grades actually are delivered; or where the difference in price is paid if another grade is delivered. This and other changes will be considered. It means that the cotton futures amendment finally will be retained as a regulatory provision as well as a revenue raising feature.

Representative Leavelle said today that the substitute for the Clarke cotton futures amendment had the approval of many southern senators, with whom he had talked. The proposal is in the nature of a compromise, and was drawn by Mr. Leavelle after conferences with experts of the department of agriculture, and Postmaster General Bullison. It is intended to regulate cotton exchange contracts rather than abolish the exchange.

Under the substitute, if actual delivery of cotton sold on exchange were not made, a settlement would be required on the basis of actual commercial differences as established in the spot cotton market, for six days previously between the grade tendered and the basic grade named on the contract, which is usually middling cotton. A nominal tax of 5 cents per bale would be imposed on non-delivery.

### What Exchange Men Say.

Representatives of the cotton exchanges have leveled objections to such a compromise, and have asked that a small tax be levied—approximately the same as that imposed as a revenue raiser during the Spanish war—and government commission be created to study the taxation of cotton futures as an economic measure.

The cotton men who object to the compromise declare that the taxing of cotton, for which the government has created a standard type, will cover only certain grades of white cotton, and will exclude not only certain low grades of white cotton, but also all colored and stained cotton, which normally constitutes about 25 per cent of the crop, and which they claim in years of storm is a much greater proportion.

The effect of the compromise, they say, would be to life a tax described by them as "destructive" and "probative" from only a portion of the crop.

### Marshall Pleads Guilty.

Birmingham, Ala., September 17.—D. J. Marshall today pleaded guilty in United States court to being in charge of using the mails to defraud. He was given 18 months in the federal penitentiary. Marshall is the former president of the American Concrete and Steel Co., of Birmingham, and is alleged to have sold several thousand dollars worth of worthless bonds in the company.

### ENGLAND THREATENED BY GREATEST STRIKE

#### Lockouts of Workmen Seem Likely to Cause General Labor Trouble.

London, September 17.—England is threatened with the most serious strike history, according to union leaders here today.

The trouble began with lockouts of many workmen in Dublin last week, due to a strike of transport workers because of the employment of non-union laborers. The sympathetic Liverpool dock workers and three great trunk railways serving the midland counties of England and the Manchester Ship Canal company are contending with a strike of dock laborers.

At Liverpool seven of the great freight depots were idle this morning and others are likely soon to be closed. All attempts have failed to settle the Dublin trouble. The difficulty of getting provisions into the Irish capital has become so great that it is believed the markets there will be closed.

London has been only indirectly affected by the railroad strikes. The metropolis is more interested in the threatened strike of motor omnibus drivers because the employers refuse to allow employees to wear union badges. The men met today and passed a resolution favoring a strike, which would tie up all the motor omnibuses and taxicabs in London.

### HEAVY DOCKETS KEEP FULTON JUDGES BUSY

On account of having one of the heaviest dockets of the year in the criminal division of the city court Judge Andrew C. Cabourn has decided to hold court another week. After that the criminal division of superior court is due to meet, as these courts do not have separate rooms and cannot meet at the same time. Solicitor Hugh M. Dorsey is said to be looking for a judge from another circuit who can preside temporarily in Fulton until the tangled caused by changes can be straightened out. His docket is even more crowded than was the city court docket.

### Athens Schools Open.

Athens, Ga., September 17.—The Athens public schools opened Wednesday morning with a large increase in enrollment of the ten school buildings. Three of the buildings have been enlarged and the new ones erected. The present outgrowth of a Clarke case will be used as a school as soon as the new building is done.

### WRECKER SUSPECTS PUT UNDER ARREST

#### Engineer Ragsdale, of Central, Notices Absence of Lamp and Stops Train in Time.

Sheriff L. D. Hutson of Spaulding county and two railroad detectives tonight have made about white men under suspicion for the attempt to wreck the Dixie Flyer late Tuesday night as it sped through the yards of Hampton, Ga. It is expected that arrests will be made within the next 18 hours.

This is the second time that an attempt to wreck the Dixie Flyer has been made at this place, the previous attempt occurring about the same date. The train has also been stoned several times near Hampton. Although detectives have made thorough investigations of these previous outrages there have been unable to place the blame on anyone.

The attempt was frustrated by T. R. Ragsdale, engineer, who happened to note the absence of the switch lamp of the Dixie Flyer. The train was driving at high speed when Ragsdale saw the customary lamp was missing. He brought his train to a halt within seventy-five yards, the place where the engine coming on the displaced switch. Investigation revealed the switch lamp burning in a nearby cornfield, where it evidently had been thrown.

Officials of the Central road, the tracks of which receive the flyer on a route from Atlanta to Hampton, are making immediate investigation. Bloodhounds are on the trail of the supposed would-be wreckers, and a squad of detectives are at work on the case.

### COMPANY F TO STAY SAYS COL. POMEROY

Colonel E. E. Pomeroy, of the Fifth regiment, has advised that he will stay in the report that Company F of this regiment, the Fulton Blues, is to discharge. The company, which is the elite of Atlanta society and the regular recruits will be sent to take the place of those who fall out and to bring the company up to the normal number.

### GRAY VETERANS BARRED BY BLUE

Continued From Page One. public members. This order was based on a custom which has been observed in the past. In addition to this the Confederate camp was ordered to leave when its members were former Confederate soldiers. Captain Harrison Jones and Lieutenant George W. McCarty have already resigned. Colonel Pomeroy declares that recruits will be sent to take the place of those who fall out and to bring the company up to the normal number.

### NEGRO VETERANS IN PARADE

Many unique features marked the demonstration. Umbrellas were more numerous by far than arms. In many instances red, white and blue parasols were substituted for guns and the Louisiana-Mississippi mostly composed of negroes, carried stalks of sugarcane, topped with cotton bolls. Good-natured crowds were exchanged continuously between the marchers and the spectators. One of the veterans was asked, "What do you think of the south?" Turning to his comrades, he waved both arms and called for "Three cheers for the south!" The veteran recovered the teeth and proceeded on his way cheering.

### Two White Slavers Sentenced to Pen

Chicago, September 17.—Federal Judge Landis today in sentencing Frank Sobotta, a vaudeville singer, and Alec Heiser, a bartender, convicted of bringing two girls from Detroit to Chicago for immoral purposes in violation of the Mann act, to one year in the penitentiary, characterized them as "typical panders" and declared they were "a disgrace to their sex."

### Additional \$75,000 for Augusta Building

Washington, September 17.—An additional appropriation of \$75,000 for a public building at Augusta, Ga., asked by Representative Handwick, was approved today by the house public buildings committee.

### GAINEVILLE MIDLAND PLANS TO WIDEN TRACKS

Athens, Ga., September 17.—(Special)—The Gainesville Midland railway, through the president, Geo. J. Baldwin of Savannah, and Attorney H. E. Dean of Gainesville, will petition the railroad commission on September 26 to be allowed to issue \$250,000 in first mortgage bonds and \$250,000 three-year

six per cent notes. It is understood that part of this amount will be used to broaden the gauge of the portion of the road from Belmont Junction in Hall county to Monroe in Walton county, connecting there with the Georgia

## DON'T LEAVE THE FAT CLAM BED

Would you let a BIG DOLLAR roll away? A merchant who has been a merchant for many years was rolling Big Dollars down a RAT HOLE yesterday. He claims to be successful.

But he isn't. He is overlooking the piles and piles of money that you prosperous people would spend WITH HIM if he only could convince you that he had the goods of quality and bargain prices that he thinks he has.

He may have the best in the world at the lowest prices; but YOU don't KNOW it. Therefore he must confine his sales to a small proportion of customers.

This merchant is like the boy digging for clams who left a bed of FAT, TENDER CLAMS for another part of the Bay and found NO CLAMS at all. He walked right over thousands of the richest clams in the ocean as he hurried to an unfruitful spot. After a while he returned to his starting place, but the tide had covered the flats. His basket was empty, and he went home DEFEATED. The boys who REMAINED at the PLENTIFUL bed FILLED MANY BASKETS and MADE MANY SALES.

This merchant and thousands of you are PASSING BY the fat, rich, tender clams—the fruitful, thriving opportunities that bristle in the air all about you.

Why don't you GRASP them? Buy a WANT AD. TELL the people what you want. Somebody in Atlanta HAS the thing you need. Is it a home, a room, a job, a sewing machine or an automobile? Someone has it. Don't be the boy with the empty basket. TELEPHONE a WANT AD to The Constitution TODAY. Answers tomorrow.

Friday and Saturday and Sunday are Big days this week. Don't pass them by; each is full of big chances for success.

BYRD PRINTING CO. 46-48-50 West Alabama Street, ATLANTA. Quality! Service! Price! When a man goes to market for PRINTING, his natural demands are for "QUALITY"—then, when he is assured of this, he generally wants what he wants NOW—in other words, he must have "SERVICE"—then, of course, that man is going to ask the "PRICE"—yes, sir, he must know what the work is going to cost; and in order to harmonize the HIGHEST QUALITY, and the PROMPTEST SERVICE, with the LOWEST CONSISTENT PRICE, we figure scientifically, accurately, and with the utmost fairness to the buyer, so that he can get our BEST work at the LEAST price. This method of calculation and pricing is the great boundary line between merit and mediocrity.

FACE COVERED WITH PIMPLES—RESINOL CURED. Atlanta, Ga., April 24, 1933.—When I received the samples of Resinol Soap and Resinol Ointment, I was impressed with the fact that they were covered with pimples which defied other creams, soaps, and cosmetics. They were a source of constant humiliation to me, coming in contact with many strangers as I do as a business woman. By the use of Resinol Soap and Resinol Ointment, my skin has become as smooth as silk. My friends were stunned, and everyone asked me how I had done. When I told them I think they hardly believed it. The transformation was simply wonderful. Since then I have been using Resinol Soap and shall never be without it again. For I have learned the delight of that soft, beautiful complexion that may be attained by its constant use. Resinol Soap and Resinol Ointment are sold by every druggist. FOOD SO MUCH BETTER THAT PRICE IS HIGHER

So Dr. Wiley Expands Advance in Living Cost—Men Never Before So Well Fed.

Chicago, Ill., September 17.—The six sections of the International Congress and Exposition of Refrigeration arranged their temporary organizations today preparatory to a week's discussion of the most modern means of preserving, conserving and transporting foods.

- The six sections of the congress are: 1. Liquid gases and units. 2. The design, construction, operation and methods of testing refrigerating machinery and insulating materials. 3. The application of refrigeration to foods for the purpose of conserving and preserving them. 4. The use of refrigerating apparatus in the industrial arts. 5. Consideration of refrigeration in railway and steamship transportation. 6. Consideration of questions relating to legislation and administration.

The cost of living and means of reducing it were discussed by Dr. Harvey W. Wiley, former chief of the chemistry division of the department of agriculture.

The increasing price of food is not due solely to its scarcity, he said. There are other causes, and he pointed out as well food as at present. We do not have to look for a scarcity of the increased cost of food.

First, people are eating more foods than ever before, and second, the purchasing medium, namely, money, is relatively far more abundant than ever before. The result is that food will purchase so abundantly that the great surplus of food, however, are not so expensive at the present time as during the war. For a day's labor a man can buy more wheat than he could buy a year ago.

Factory Room to Farmer. The factory in a farm neighborhood is a boon to the farmer, for it allows him to market and sell the cost of transportation, the moral and mental upon the people of a distribution of goods is no less important. The saloon has no compelling attraction for the laboring man, after his eight hours of work, has eight hours of leisure and vegetable gardens. If our products of industry in the city and country will be distributed in the form of a factory room to the farmer.

The important condition now existing of producing so-called fresh foods in an advanced state of ripeness and of providing foods which should be properly acted in an immediate state. The food has to be ready for distribution within three weeks of slaughter and the four-year-old whisky is made in four.

PUTNAM COUNTY COURT OPENS AT ATONTON

Atonton, Ga., September 17.—(Special.) The fall term of Putnam county superior court is in session here this week. Judge James H. Lovely, Ga., September 17.—(Special.)—The number of game birds and animals in this section of the state has been greatly multiplied during the past closed season, it being reported that there are quite a number of quail the fall. The quail, it is also greatly multiplied, the sportmen saying that these little animals are numerous in the woods, as they have not been in years.

HARRY THAW GREETED BY CHEERING CROWDS

His Trip From Littleton to Concord Was a Continuous Ovation.

Concord, N. H., September 17.—Harry K. Thaw was greeted to the capital of New Hampshire this afternoon to attend a hearing before Governor Parker on Tuesday next on the matter of his extradition to New York. If extradition is refused he will be a free man to go where he will within the borders of this state. If it is granted, his case will be reviewed by the United States district court on a writ of habeas corpus granted by Judge Edgar A. Tamm, and perhaps appealed to the supreme court of the United States.

Thaw's trip from Littleton, N. H., where yesterday his lawyers obtained a writ of habeas corpus in his behalf, shortly after 2 o'clock this afternoon. A crowd which cheered him with lusty enthusiasm gathered at the station and followed him to his hotel. Tonight he remained in seclusion, conferring with William A. Stone, ex-governor of Pennsylvania, who has acted in the double capacity of counsel for Thaw and personal representative for the Thaw family.

Thaw stays in "Trojan Room." The stables stands almost directly opposite the Eagle hotel, where Thaw is held under the joint custody of United States Marshal Saxe and Sheriff Drew, of Coos county. The structure was built in 1818 and, for additions, stands as in the original. Thaw slept tonight in "the throne room" of the Eagle hotel, entrance was famous as the conference headquarters in days gone by and since occupied by Taft and Roosevelt on their campaign tour.

Lucy Cobb Institute Begins 5th Year. Athens, Ga., September 17.—(Special.) Lucy Cobb institute opened Wednesday morning its fifth-seventh year with a larger attendance than last year. Miss Cobb has returned from two years in Germany and takes the piano department. Miss Hall of the Drexel institute, Philadelphia, is at the head of the new domestic science department. The faculty returns to take the mathematics department. Miss Cora Brown, daughter of former Governor Joseph M. Brown, who graduated last year, is in charge of the post graduate course. In fact, every member of the graduating class of last June is back for post graduate work.

JUDGE COBB ADDRESSES UNIVERSITY STUDENTS

Athena, Ga., September 17.—(Special.) There was a liberal commencement address at the "commencement" of the school year at the University of Georgia today when Judge Andrew J. Cobb, formerly of the Georgia supreme court, addressed the young men and the visitors in an opening talk.

"Conservation of Real Democracy" might have been the theme of the address, which was a strong arraignment of the need just now of conservation of conservatism, the holding steady to the first principles of government, the eschewing of the fads which are dangerous to liberty and to the best government. These fads, Judge Cobb declared, appear in many forms of delusive popularity—the recall and the initiative and referendum, the election of judges and justices, justice and other officers by popular majority. He deplored the craze for throwing everything into politics.

The freshman class at the university this year seems now to be smaller than last year—though there may be many yet to register. There are more former students here, who are back early in the opening week than for several years. The enrollment for the first two days was just one less than the registration of the first two days of 1912.

ODD FELLOWS GATHER AT SUMMERVILLE TODAY

Rome, Ga., September 17.—(Special.) Odd Fellows from six north Georgia counties, Floyd, Polk, Walker, Chattooga and Dade, will gather tomorrow at Summerville to attend the semi-annual convention of the seventeenth division of the order. The gathering will be made notable by the presence of all of the grand lodge officers, Grand Master P. M. Hayes, of Savannah, and Deputy Grand Master W. B. Mason, of Gainesville, will make addresses.

Thaw Plays Piano. Thaw returned to the court victory of yesterday over William Travers James by playing the piano in the parlors of the hotel where he had been quartered at Littleton. Around him was an admiring throng of hotel natives. The piano, a classical music instrument, was played for an hour by James and avoided ragtime. For over an hour he played the piano and he would have played longer had he not been interrupted by the post graduate students. United States Marshal Saxe and Sheriff Drew, told him it was bedtime.

FOUR CARS A DAY. There are but two logical methods of building motor cars. One method is to produce cars in enormous quantities so as to bring the price down as low as possible. The other method is to produce cars in limited quantities so that each car will be of the highest quality. Each system has but one real exponent. In a middle Western city, "mass production" enables a good small car to be made and sold at a low figure. In a New England city, "The Best Built Car in America" is produced practically car by car, by the finest mechanics in the world. One car carries out one ideal, the other a totally different ideal. Both are right. Both are built, not assembled. One company makes 1,000 cars a day, the other company Four Cars a Day. The idea back of one car is to give the most for the money; the idea back of the other is to give the best, regardless of price. The smaller car is turned out like the well-known and worth while "dollar watch." The greater car is built like a Chronometer. Any other car—is a compromise. The Locomobile now occupies a peculiar position. It is the only high-grade car whose sales have increased during the past two years. This success of the Locomobile is due to the policy of building not more than four cars a day. All of the power and the experience of the Locomobile organization has been concentrated on a limited production. Years ago we concluded that just so surely as the best cheap car could only be produced in very large number, just so surely could the car of highest quality be produced only in limited quantities. Our policy from the very start was to build cars in small lots so that each car could have the most intimate attention. When others were increasing their plants and building more cars, we were increasing our quality, striving to make the Locomobile "The Best Built Car in America." Every Locomobile has been built like every other Locomobile. Every Locomobile has been built with the utmost care. Every Locomobile has been built to carry out the ideal of quality, not a commonplace, commercial ideal. The Locomobile will be made as it always has been made, in limited quantity—and with unlimited care. (Despite the present demand for the Locomobile and despite any rumor to the contrary, we will not increase our production and make more cars.) There will always be a demand for the limited number of cars we make. Because we have been building for the future, our plant will always run at capacity, without reducing the quality of our product, or its price, or both. THE LOCOMOBILE COMPANY OF AMERICA. ALL THE NEWS OF REAL ESTATE AND BUILDING

The first floor plans of the Healy building, showing the arrangement of the offices on each floor, were mailed yesterday to prospective tenants. These show that there will be 31 offices on each floor above the second of various sizes. While there has been a demand for offices in the Healy building, owing to the fact that the present location of offices on each floor could not be exactly ascertained, a number have held back until they were sure of the time to time there have been rumors that a million dollar trust company would occupy the ground floor of the building, but so far this has been denied by the rental agent. However, some announcement of the ground floor tenants will be made shortly, it is thought.

ACTIVE DEMAND SEN COTTON UP

Active Months Sold Above \$3 Per Bale Above the Low Level of Last Friday—Sharp Advance in Liverpool.

New York, September 12.—The cotton market was higher today, on active and somewhat excited demand, which seemed to be inspired by the strong showing of Liverpool. Rumors that foreign spot houses had advanced their buying bids in the south without securing much cotton and more numerous reports that continued rains were damaging the new crop. Active months were sold practically 81 per bale above the low level of last Friday, and within some 8 or 10 points of the high record established shortly after the publication of the September condition figures. Heavy selling and considerable southern selling was encountered around 12 1/2 and at an advance of 10 to 15 points, but there was a comparative moderate reaction, and the market closed firm at a net gain of from 11 to 25 points for the day.

The talk around the local ring suggested that the amount of Liverpool had taken the trade by surprise. At first there was a feeling that it had resulted from rumors that a local authority would issue a report this morning making the price reached at the spot at 61 per cent. This report, as it actually published just before the opening here, made the price reached on Sept. 12, 1913, 69 per cent, compared with 65 per cent two weeks ago, but the price reached in Liverpool was rather less than expected. It failed to check the buying movement and one of the prices of the local market was advanced to 12 1/2 points above the active demand in Liverpool to cover crop accounts and other foreign houses in Texas, Oklahoma and Arkansas.

The local market opened firm at an advance of 15 to 20 points on an advance, and quickly sold 24 to 26 points higher. Subsequent fluctuations were somewhat irregular, but last prices were within 2 or 3 points of the high point and after the close here there were private sales at 13.90 for December, or 2 points above the best price reached during the regular season. Higher southern spot markets contributed to the late advance, as they seemed coincident with the reports of a more active demand from abroad, and some of the local buyers were predicting a decline for foreign spinners who are said to have advanced their prices against their forward needs. Stock cotton steady; middling uplands, 13.40; gulf, 13.65; sales, none.

CORN LED UP IN GRAIN PRICES

Rains Reported to Be Delaying Corn Shelters and Low Crop Estimates Caused That Grain to Advance.

Chicago, September 12.—Corn the lead today on change and brought about a general advance. The reason was that consignments of corn dropped off sharply from many districts which recently have been heavy shippers. A get gain of 8 to 7 was scored by corn, which attained the same as last night to 1-1 higher, onto 1-8 to 1-4 and provisions unchanged to a rise of 1/2.

Unmistakable strength showed in corn from the start. The prolonged rains were said to be delaying shelter and low crop estimates were reported. Eastern cash demand also was said to have improved to a considerable extent. It was not much of a flurry, however, and traders here said to explain that offerings from shippers in the country were falling away in a surprising way, that no important reaction was to be expected.

Reports that farmers in the north-east especially were storing wheat on a larger scale, and that the help of the bull side in that grain. Estimates indicating that a liberal amount of the crop is being used as seed also in favor of an advance. The upturn, though, did not hold in the case of other grains. Earlier weakness, due to an official report that the French crop would be much larger than expected, had been handed with corn. Shorts were busy during the advance. Higher prices for corn and hogs tended to protect provisions. Cattle and hog houses were the best buyers. On the liquor packers seemed to be in the market with a rather free hand.

HEAVY TRADING DONE READING

Stocks of That Road Made the Highest Figure of the Year. Advance Said to Be Due to a Squeeze of Shorts.

New York, September 12.—The spectacular performance of Reading stock out conspicuously today in a stock market which otherwise displayed little animation. Trading in Reading in the first hour was the heaviest seen in any one stock for weeks. The rise in the afternoon of over 2 points in London, following the sharp upturn in this market recently, caused excited speculation in the stock.

The first transaction was a block of 15,000 shares at 18 1/2 to 18 3/4. The quotation was quickly run up to 17 1/2, the highest figure of the year, a level over 10 points above last week's low and a gain on the day of 2 1/2. There reading's boom abruptly ended. The price fell a point and trading grew quieter.

The general market was affected unobtrusively by these variations. It held that Reading's rise represented merely a severe squeeze of the shorts and little weight was attached to bullish rumors concerning possible increase in earnings and the consequent segregation of Reading assets involving a stock distribution.

Operators refused to follow Reading by bidding up the rest of the list and sold stocks instead. The heaviest tendency at the closing session was away to a definite movement in the market. Later when callings in Reading resumed normal proportions there was a corresponding improvement in the market on the whole.

Union Pacific, the Seaboard issue, Great Northern and the petroleum stocks led in the rise, with other showings of strength in other quarters. The market gradually grew heavier as the day advanced and in the last hour

was under pronounced pressure which caused several standard shares to drop a point or more. Following the announcement that only the regular dividend would be paid, the Reading directors, the stock rose, and was left of the day's gain and somewhat below 18 1/2.
