NO CLEMENCY EXTENDED TO YOUNG J. B. HANSON

Clemency was denied yesterday by the prison commission and the governor in the case of J. B. Hanson, the young Atlanta law student who was convicted before Judge Roan of concealing a dead and sentenced to pay a fine of \$500 or serve twelve months in the chain gang. The case was appealed to the court of appeals and a new trial denied.

Lacks the Nerve to Kill Self, Sweetheart and Mother Say

Miss Mary Lewis and her sweetheart, Charles W. Anderson, supposed suicide. The picture of himself he sent her inscribed, "Lovingly yours." and then left, stating that he was going to Chattanooga. I do not believe that he is dead, as I do not think that he had the moral courage, neither cowardly to take his own life. I firmly believe that he wrote the note in the hope that Mary would turn to him, as I know that he was madly in love with her.

SOUTHWEST GEORGIA AND YET MORE RAIN, SAYS OUR WEATHER MAN

Former Grady Representative But He Holds Out Hope for Sunshine Saturday, and Sunday, Too.

According to R. R. Terrell, of Whigham, Ga. former representative to the house from Grady county in the general assembly of 1907-08, the people of southwest Georgia are amply prepared for the invasion of the boll weevil. Mr. Terrell was in Atlanta yesterday in business with the prison commission. Discussing the outlook for farmers in Grady county, he said: "Grady county is in a better position this year, because, while the cotton crop is not as good as it might be, the farmers are getting an excellent price for it, and they are not depending upon it as their all."

Tobacco Important. "Next to syrup in importance comes tobacco. We have little strip in Grady county extending down into Florida, which produces a quality of tobacco which cannot be grown anywhere else in the world outside of Cuba. This is naturally a very important crop with our farmers. After that comes cotton, which is a money crop this year because the farmers are out of debt and the crop is bringing a good price."

More Students Than Ever Before. Splendid Session Assured. Agnes Scott college, located at Decatur, 8 miles from Atlanta, opened for its twenty-fifth annual session yesterday morning with one of the largest and most representative attendances in the history of this famous institution.

Romie Williams Is Paroled by Slator. Romie Williams, a trusty convict, sentenced to serve ten years, from 7477 county for manslaughter, was yesterday paroled by Governor Slaton. The application for parole had been pending a year, and had been declined by Governor Brown. Williams had proven himself very useful as a trusty in the Rockdale county jail in catching other convicts. It is said that the Rockdale county commissioners will employ him at a salary to continue to assist W. J. Dake, the chief of him at the county commission in catching convicts. Williams has proven to the prison commissioners that he is entirely trustworthy and it is their opinion that he is only technically a convict. He is a man with a wife and four children, for whom he will now be able to earn a livelihood.

McELWAIN SHOES. A shoe should be adapted to its specific use. A dancing shoe will not wear well when used as a work shoe. There are McElwain Shoes for every shoe purpose—for dress, for work, for sports, for children, for boys—each shoe sold at a price which represents real value for your money.

Chamberlin-Johnson-DuBosc Co. ATLANTA NEW YORK PARIS. You Are Safe and You Are Saving When You Buy Hosiery Here. Let's talk plainly! In the average store, the hosiery department is a troublesome affair.

Chamberlin-Johnson-DuBosc Co. ATLANTA NEW YORK PARIS. You Are Safe and You Are Saving When You Buy Hosiery Here.

How do we manage it? By recognizing that eternal vigilance is the price of a successful hosiery business. As far as human ingenuity permits, we know the hosiery we offer. We know it as the best to be had at its price; that's why it is here. That's why we will choose one weight and grade from one maker and another weight and grade from another maker. Merit is the test. Several of our best numbers are from a now comparatively obscure mill—it will not be obscure long if it continues making such hosiery.

Are you a Chamberlin-Johnson-DuBosc Co. hosiery customer? It is our honest conviction that you should be. It is our honest conviction that those who depend upon us for their hosiery spend less money in a given length of time than they would otherwise. Test the worth of these statements! Now is a splendid time, at the beginning of the new season when new hosiery must be bought for yourself, for the children going to school. You can not lose, we will not let you keep a faulty pair.

A new departure—in the matter of service for our Hosiery customers. Through arrangements that we have made it is now possible to get single pairs of silk hosiery to MATCH ANY SHADE you might wish—our free dyeing service that extends to every purchaser of a \$2.00 pair of silk hosiery. One week required for this offer order is given. Agents for Butterick Patterns and Publications. Chamberlin-Johnson-DuBosc Co.

A SENSIBLE DECISION. The board of police commissioners has at last settled upon a definite policy.

Chief Beavers will permit fewer arrests such in the future. Where there is cause for complaint, a copy of charges, citing offenders.

Now that uncertainty in this direction is settled, let's get down to business in the matter of genuine law enforcement and of upholding the hands of the chief to that end.

The cop's delinquent method is infinitely preferable, in trivial offenses, to riding accused men or women or both to the barracks in the patrol wagon.

And the public safety and public morals are better protected by the cop plan than the arrest plan.

Fortunately, the department and the public now know where the danger atmosphere has been clarified.

HOW ATLANTA JEWS GIVE. Last Sunday The Constitution showed editorially how the Jews of Chicago give to charity in immensely superior ratio to all other combined sects and religions.

According to Mr. Hyman, the Associated Charities, assumedly dominated by Gentiles, had an income in 1911 of \$14,815,711.

The income of the Federation of Jewish Charities for the same year was \$1,292,355.

Jews in Atlanta number only about 4 per cent of the population. They contribute nearly 50 per cent of the charity funds.

Remember, too, that the Associated Charities pay the salaries of the Jews in Atlanta.

Remember, too, that the Associated Charities are now struggling between life and death because of \$3,000 in pledges unpaid.

Jewish charity never has to beg for existence. It never has to take oxygen to keep it alive.

FOR GOOD CITIZENSHIP.

With the fundamental purpose of harnessing religion to civic endeavor, the Southern Christian Citizenship Congress will begin its sessions in the Auditorium.

The other speakers will be addressed by clergymen of practically all the denominations in Atlanta.

The vice president and field secretary of the congress, William D. Ushaw, has arranged a program of unusual force and attraction.

The underlying motive of the congress is to show the inseparable connection between the good Christian and the good citizen.

Georgia can supply meat, both beef and pork, in abundance.

It is up to Georgia, the keeness of her bankers, the initiative of her farmers, to meet the needs of the west.

Details are told elsewhere, touching the disappearing of the glory of the west as a cattle country and the impending good fortune of Georgia.

The crisis is an equally serious, rather a plane of supremacy.

That is as pertinent to cattle and hogs, up in the Blue Ridge Georgia there is a regionally adapted sheep raising.

An additional incentive is the fact that the Argentine produce, the greatest natural asset to America, is just beginning to invade the American market.

It is folly to the last degree to let American money go abroad needlessly, to send our own money abroad needlessly, when we can produce here in Georgia beef and mutton sufficient not only to feed ourselves but many of the eastern states as well.

As Mr. White shows, the realization of this opportunity must get away from the hands of incompetents.

The farmer is the pillar to the archway that looks into the Land of Promise indicated by White and Manss.

Now Hursta is wrangling about American warships, but the latter seem to have the best of the argument.

Colonel Roosevelt is lighting what he calls "the invisible government" and naturally he can't see where to hit.

"I have been making furniture, polisher," replied Mrs. Jamesworthy, with pardonable pride.

NATION CRIES TO GEORGIA

IN FACE OF BEEF FAMINE. The tremendous opportunity that opens to Georgia by reason of the threatened shortage of beef supply from the western states is emphasized forcefully in correspondence recently exchanged between W. WANTED TO SOLVE COTTON PROBLEM

President Appealed To in Regard to Cotton Futures Tax Believed a Satisfactory Solution Will Be Reached.

By John Carrigan, Jr. - Washington, September 18.—(Special.)—President Wilson's influence is counted upon to work out a satisfactory solution of the cotton futures tax and to eliminate the grosser evils of exchange gambling while preserving this market to the cotton trade.

Members of Congress entertain serious doubts of the wisdom of the present form of tax. Incorporated in the tariff bill. Some question whether it will restrict speculation, while others accept the view of exchange operators that it will abolish the same and restore the cotton trade to the condition it was in before the civil war.

No one who has studied this problem doubts that cotton exchanges when fairly conducted and selling an honest contract are a benefit to the whole cotton industry. The exchange is founded and has grown up in a sound. It helps to distribute the tremendous risk of the cotton trade.

Prof. Per He is Small. Many cotton merchants today are afflicted with a morbid dread of the sale, and very few of the big traders make more than 10 per cent profit. It has become so systematic and the legitimate risks so widely distributed that small speculators are practically excluded.

But if there were no means of avoiding the speculative risk of other shoulders, I doubt if the price paid in the farmer-in many seasons would be high. To protect himself from possible fluctuations the merchant will pay a price low enough to cover losses and the cost of carrying the stock. He could find a purchaser. At present these speculative risks are taken by the exchanges where hedging contracts are bought and sold.

Most of the cotton grown in the south is dumped on the market within three months. Of course only one-fourth of it is contracted for during this time. Someone must carry this cotton until it is sold. The mills, or it would be left on the farmer's hands. That is the function of the cotton exchanges.

Cotton brought into market in Atlanta, Charlotte or Houston is bought by the local merchant. He sells it at spot prices, though it may not be needed by the mills of Manchester, Bremen and Nagasaki until many months later. The mills of the world at the same time are making contracts to deliver cotton goods and are insuring themselves against fluctuations in the market by selling futures contracts.

When the time comes that the manufacturer actually needs the cotton, he will sell his future contracts and buy the actual spot, the fluctuations in the price of spot and futures being expected to counterbalance each other. Where Exchange Agreement Falls. Defenders of the New York cotton exchange fall down in attempting to explain the absurd fluctuations between future prices and spot prices.

rial difference. In most cases delivery is not contemplated. It is that material to the "hedging" process. For these reasons the sales of futures have an actual bearing on the marketing of the cotton crop. Every year the New York cotton futures contract is dishonored. A prominent New Orleans operator, "Wing" and his associates, who are 100 per cent lower all over the south than it would be if there were no New York exchange in existence.

"There will never be fair dealing unless the New York exchange adopts the new Orleans exchange contract. It is based on middling cotton and the grades above and below it are subject to change every day. The New York market must adjust its premiums and discounts to the same basis.

Raise of Sticks and Leaves. "Only bears can now operate in New York for the reason that it is possible to tender sticks and leaves done up in the shape of cotton bales to the unfavorite bull, who is said to be organized as a large scale of cotton and wool pool to fix the market.

The New York cotton exchange, organized under the laws of that state with a membership of 600. The pool has absolute power over the market and no one but a member can deal. No one but a member can deal. No one but a member can deal.

John Lewis of Liverpool, England, was one of the new members credited with forecasting conditions which led to the establishment of the New York cotton exchange in 1817. He and the Liverpool cotton exchange and the Liverpool cotton association the year previous.

In 1838 Mr. Lewis said that with the aid of the new law it was possible for a cotton merchant to secure a profit in a few days. He said that if the Liverpool quotations on cotton were high enough to enable him to go to the south at a lower figure he would arrive at an advanced price. When this cotton reached Liverpool it would be sold at a higher price than when he had sold the cotton to the south.

Whenever a business man, who comes to town on the cars every morning and who goes back at night, is asked to find out how many people are interested in that variety of 100 in gold, or that of 100 in silver, or gold, watch, etc. etc.

BUTLER MUST SERVE SENTENCE IN PEN

Man Who Permanently Disabled Marshal of Whigham Must Pay the Penalty.

Governor Slaton yesterday morning declined to approve the recommendation of the prison commission granting a parole to H. H. Butler, who was taken up from Grady county for three years for assault with intent to murder. This is one of the few cases in which the governor has disagreed with the prison commission in extending clemency.

In declining to exercise clemency, the governor gave the following statement of the facts in the case: "The city marshal and mayor of Whigham, Ga., were walking along the streets when the latter carried and boisterous conduct in a lively stable. The mayor told the marshal to go in and stop it. The marshal attempted to stop the one creating the most of the disturbance, the uncle of the defendant. Both the uncle and defendant were drinking. The defendant then upon shot the marshal, the bullet entering the base of the nose, between the eyes, cutting the optic nerve and destroying the sight of one eye, besides pressing on the brain and causing epileptic fits. The presence of the evidence establishes these facts, and the jury so found with the approval of the court. The marshal in the performance of his duty has suffered irreparable injury. I find no reason for executive clemency, and decline to approve the recommendation of the prison commission. This September 18, 1913.

"Signed, JOHN M. SLATON, Governor."

"I may go before the grand jury and ask for some indictments," said Smith, Tuesday. "I have no money, my mind yet and I may not be physically able to pay. But I may do so, despite my condition. If I have to go to jail, I'll take some others with me."

TRAVELER RETURNS BEARING WAR PASS OF 50 YEARS AGO

Bringing in his pocket the old and buried war pass on which he left Atlanta at the close of the civil war, R. L. Dunning, of New Haven, Conn., returned to Atlanta yesterday to view the "almost unbelievable transformation" wrought in the Gate City of the South by the passing years.

Mr. Dunning was then a tot in his mother's arms, the pass being issued in the name of his father, reading, "Reuben S. Dunning, wife and two children." The pass was signed by Provost Marshal General G. H. McMur-

phy, who died about a year ago. Mr. Dunning had placed the interesting relic in a small glass case in order to preserve it for his children.

Having been on a trip through the south, on which he stopped in Chattanooga for a few days to see the

Grand Army of the Republic reunion, Mr. Dunning took the train for Atlanta in order to see the city once more. He had been back only once since the war, leaving again in 1878 and this was the first glimpse of Atlanta he had got in thirty-one years.

All ministers and Sunday school superintendents in the city have been cordially invited to sit upon the platform and as many as possible are urged to comply with this request. The official headquarters of the Southern Christian citizenship conference will be at the Hotel Ansley.

"IT SEEMED I WOULD DIE"

Expression Used by Mrs. McGee in Describing the Terrible Agonies She Underwent.

Stephenville, Texas.—"For ten years," says Mrs. Jay McGee, of this place, "I suffered from womanly troubles. I had terrible headaches, pains in my back, etc.

My husband told me to try Cardui, and the woman's tonic, but I did not think anything would do me any good.

It seemed as though I would die. I suffered so. At last, I consented to try Cardui, and it seemed to help me right away. I was interested, and continued its use.

The full treatment not only helped me, but it cured me. It will do the same for all sick or suffering girls or women—both married and unmarried.

I will always praise Cardui, the woman's tonic, highly, for it has been the means of saving my life and giving me good health."

Other women, who suffer as Mrs. McGee did, should profit by her experience, and get relief, as she did, by taking Cardui, the woman's tonic.

For women's pains, for womanly troubles, for nervousness, weakness, etc., its 30 years of splendid success, has proven that Cardui is a good remedy, prompt, reliable and harmless.

Cardui is almost sure to help you and will leave no disagreeable after-effects. Try it.

All the News of Real Estate and Building

That the real estate outlook is more promising than it has been for some time is the opinion of Harris O. White, president of the Atlanta real estate board, and one of Atlanta's most prominent realtors.

"Money is also loosening up a bit, and I think it will be easier during the winter than it has for some time past. It is the large volume of inquiries, though, which makes me feel confident that this is a healthy sign of interest in the market, and an evidence that there is money to be had."

"The fall and winter months should be busy ones for all Atlanta real estate dealers. The city has been growing very fast for many months, and homes and residences that are being built are in great demand."

COTTON STARTED OFF AT ADVANCE

But Lower Liverpool Cables and Realizing Causal Market to Close Barely Steady at Loss of 5 to 9 Points.

New York, September 18.—There was heavy realizing in the cotton market today, and after making new high records for the season, under a renewal of yesterday's buying movement, prices eased off, closing barely steady at a net decline of 5 to 9 points.

There was quite an excited demand at the start, owing to higher Liverpool cables, larger English spot sales, continued crop complaints and yesterday's late reports of a firmer southern situation. The market opened steady at an advance of 10 to 15 points, with December contracts selling at 14.00 or 15.00 per bale, but by the close of Friday and five points above the best price previously reached since the publication of the September 11th report.

A good deal of the demand seemed to be an overnight buying order which was readily executed at the new high level of prices, however, and the market soon turned around, and the price, local and southern selling.

On a break of 12 to 15 points from the best, there was a reaction, and prices rallied several points, but on each high there came a reaction, and the cotton for sale and the market weakened again during the afternoon, under realizing and after a decline of 10 to 15 points.

Looking prospects for clearing weather in the south led to predictions of an increased demand for cotton, and offerings, which may have contributed to the reactionary tendency, which part of the selling may have been inspired by reports that the labor situation in England was becoming more unfavorable and that the higher prices asked were checking business in various quarters.

Private cables attributed the advance in Liverpool to an advance in the trade buying, but claimed that trade activities from Manchester were unfavorable and that the higher prices asked were checking business in various quarters.

GEN. HUERTA AT HOME FEELS AZ HOME FOR PRESIDENCY

Order Taken to Mean Huerta Won't Be a Candidate and Will Throw His Influence to Felix Diaz.

HUERTA IS FAVORED BY CATHOLIC PARTY After the Murder of Madero, Gen. Huerta Pledged Himself to Support Felix Diaz for the Presidency.

Mexico City, September 18.—Instructions have been sent by President Huerta to General Felix Diaz, who now is in Europe, to return immediately to Mexico. It is expected that he will sail within a few days.

This fact is known to high authority and it is regarded here as indicating that General Huerta intends to abide by the past action at the American embassy last February to place no obstacle in the path of General Diaz in his candidacy for the presidency.

It is considered possible that General Huerta will throw his influence to Diaz, which would practically insure his election.

The partisans of Diaz have ceased to labor in his behalf and assert that they have organized a committee to "glorify" throughout the republic. It is the present General Diaz is the only candidate in the field.

Catholics Favor Huerta. The Catholic party which is the only organization likely to put forward a candidate in opposition to Diaz and to support several weeks ago and adjourned without naming a candidate.

SAFETY ARMED AND HELD AT STATION

Pretty Mrs. Bessie Rich May Go to Detention Home Following Husband's Complaint.

At the order of her husband of only a few months, pretty Mrs. Bessie Rich, today was arrested and held at the station by Motorcycle Policemen Palmer and Miami last night as she left a downtown home.

She was carried to police headquarters, where she was marked "hold" for the husband, who will endeavor to have her sent to some place of correction in Cincinnati. He placed her in quarters shortly after the arrest, but would not allow her to see her lawyer.

Rich, according to his story told the police, has been in the area of his bride for several days. He first reported the case to detectives. Last night he telephoned headquarters and said she was at a theater in company with another man.

Milam and Palmer went on the call, finding the girl with a youth. She was taken to the station and held. She was released after a few days.

On the prisoner's dock, she gave the age of 18. Her husband is a year or so older.

MILIONAIRE ACCUSES GIRLS OF BLACKMAIL

George Bixby, on Trial for Illegally, Alleges That He Is a Victim.

Los Angeles, Cal., September 18.—George H. Bixby's attempt to prove that he was a victim of blackmailers was begun today at the trial of the Long Beach millionaire, charged with having contributed to the delinquency of two minor girls.

After Cleo Helen Barker, one of the girls, had completed her direct testimony, the defense began a cross-examination that was so severe that Mrs. Barker fainted when she left the witness stand.

On direct examination she testified that after having been a cafeteria worker she had met Bixby several times early last winter at a resort known as the Jolly Inn, the proprietor of which, Emma Goodman, alias Edie Rosenberg, is now serving a year in the county jail.

She declared Bixby had been introduced to her as Mr. King. Pointing to Bixby in the courtroom she said he was the man she had received, and had approximately \$600 and a gold cross and chain from him during six weeks' absence.

On cross examination the girl admitted she had been given \$300 by Bixby on representing to him that she wanted to marry and had received other sums for a trip east and for clothing, according to that way for nearly the entire \$400.

UMBRELLA ROTTER MAN WHO FOLLOWED WOMAN

For near-divorce who are pestered by males shadowing them, pretty Mrs. Dan Walker—one herself of 112 Glenwood avenue, prescribes the following:

When Motorcyclist Policemen Milam and Palmer arrived she was waiting, a neat and tidy woman, in a room. She asked them to escort her home, fearing further trouble from the man she had whipped. They did nothing but their motors as they walked.

Mrs. Walker has filed suit against her husband, Dan Walker, a hat-maker, who she says has been harassing her for some time.

She waited for him. She stepped in the darkness of a building that stood close to the walk. He waited, the man came on. As he reached her side she raised her parasol into the air and brought it down on his shoulder.

Demolished Her Parasol. Mrs. Walker said the man might have been a detective and he might have been some private somebody hired by her husband, but she was inclined to believe it was the husband, himself.
